E-NEWSLETTER | EDITION 63 | MONTH - OCTOBER 2025

FOREWORD

As we drew closer to the end of October, we found ourselves at the end of another strenuous, yet rewarding month. With the end of the dreaded PT-2 exams came a collective sigh of relief — one that we all breathed together. This exam season, like all exams, kept us on our toes with countless late- night study sessions, frantic early-morning revisions and much needed moments of relief that followed the end of each exam. Though stressful, the exams served to test our knowledge.....

Outdoor education

NAVARATRI CELEBRATIONS

Navaratri, a vibrant nine-day Hindu festival, is a joyous celebration that honors the triumph of good over evil through the worship of Goddess Durga and her nine divine forms. It represents spiritual growth, inner strength and the eternal cycle of life. Traditionally marking the end of the monsoon and the beginning of the harvest season, Navaratri brings together devotion, culture, and community in a beautiful harmony of faith and festivity.

At Babaji Vidhyashram, the students

Specialist Talk

As we made our way down to the PA room for the specialist talk on 'Tissue Grafting' by Dr. Sri Vidya, the excitement around us was almost electric. The mix of curiosity and eagerness made the walk feel both longer and shorter at the same time, and we couldn't wait to hear the insights the specialist had in store for us.

Grade 8

The school trip from Chennai to Coimbatore was an unforgettable adventure! With two nights on the train and three full days in the forest, the experience was truly a blast from start to finish as we explored three different types of forests, each having unique experiences and challenges

Grade 10

I still remember the excitement within me as we left the school grounds on the sunny afternoon of September 21st, heading for the train station, marking the beginning of our Outdoor Education Trip of 2025. We were heading to the beautiful scenic village of Dandeli.

Diwali Celebrations

The moment we all waited for had arrived, with the end of exams all the students were in a joyous festive mode and we were ready to welcome the holidays!

Our school brimmed with students in vivid and extravagant outfits, ready to enjoy their last day of school before Diwali. The classrooms were lit with bright smiles and filled with warmth, as sweets were distributed at every corner.

SCIENCE ON SPOTLIGHT

Unveiling the Secret Life of Seeds

The Grade 5 students took part in an exciting Seed Dissection Activity that sparked their curiosity and sense of wonder. They began by soaking seeds in water to make them soft and ready for observation. With careful hands and eager eyes, the students gently peeled away the seed coat and uncovered the cotyledons and the tiny embryo inside. Many were amazed to see how such a small seed carried the beginnings of an entire plant.

MATH IN ACTION

This month, our primary grades discovered that numbers can be exciting through a series of interactive activities:

First grade students learned subtraction by “feeding” colourful fish sliders, making the idea of taking away visual and fun. Second graders set up a mini classroom market using play money. Through a dice-rolling board game, third graders mastered their multiplication tables in a fun and competitive way.

ELEMENTARY BRAGBOARD

In October, Babaji Vidhyashram's Elementary students participated in activities that fostered learning, values, and cultural celebration. Highlights included a Mental Health Week assembly on mindfulness, discussions on responsibility and inclusivity, and Dandiya festivities during Navaratri. Diwali celebrations emphasized homecoming and togetherness, showcasing a blend of education, values, and joy.

Step Up to Lead: The Young Voters' Election Activity

The election activity conducted in class was a fun and meaningful experience. I enjoyed taking part in the voting process and found it exciting to see how the results were counted using tally marks. This helped me how real elections work and how every vote matters. I also realised how simple math skills like, counting and organising data are used in real life.

தமிழ் கதம்பம்

முல்லை நன்றாகப் படிப்பாள். அவளுக்குக் கலைகளிலும் ஈடுபாடு இருந்தது. ஆனால், அவள் நினைத்தது போல் அனைத்திலும் வெற்றிபெற முடியவில்லை. அதனால், அவள் நம்பிக்கை இழந்து சோர்வாக இருந்தாள். அதை முல்லையின் அம்மா புரிந்து கொண்டாள். அவளிடம் ஒரு பழத்தைக் காட்டி, 'இந்தப் பழத்திலுள்ள விதைகளுள் எத்தனை விதைகள் மரமாகும்?' என்று கேட்டாள். 'அனைத்து விதைகளுமே மரமாகுமா என்பது ஜயம் தான் அம்மா' என்றான் முல்லை.

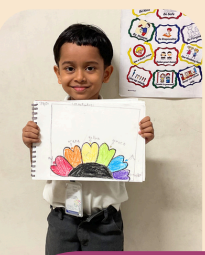

தொடர்ந்து பேசிய அம்மா, 'இதிலிருந்து உனக்கு என்ன தெரிகிறது? முயற்சி செய்யும் அனைத்திலும் வெற்றி கிடைக்கும் என்று எண்ணுதல் கூடாது. முயற்சி என்ற விதைகளை விதைத்துக் கொண்டே இருக்க வேண்டும். 'ஒருநாள் உறுதியாக வெற்றி கிடைக்கும்' என்றார். முல்லை நம்பிக்கையுடன் புன்னகை செய்தாள்.

NCC Army and CATC camp

When we entered the
camp, we were both
nervous and excited, filled
with curiosity and
enthusiasm on the very first
day. As the days
progressed, we gradually
learned to take care of
ourselves — from washing
our clothes to maintaining
the cleanliness of our
rooms.

Tiny Truths

Where the Universe Reveals
Its Hidden Secrets:

Space: There is no sound in
space. Sound waves need a
medium (like air or water) to
travel, but space is a near-
perfect vacuum.

Physics The shortest day of the
year (Winter Solstice) is not
when the Earth is farthest from
the Sun. In the Northern
Hemisphere, the Earth is actually
closest to the Sun (perihelion) in
early January.

-Viswasivam, 9C

Hands-on Naval Architecture

October 23, 2025, proved to be a profoundly enriching
and memorable day, marking a significant experience
for us, the Second Year Cadets of the NCC Navy .
Furthermore, this day held personal significance,
coinciding with my birthday. Our journey commenced
with an early departure from school around 8:00 AM,
culminating in our arrival

- Gia Sharon 9B
